Cambridgeshire

Huntingdon

The attractive Huntingdonshire countryside provides the perfect background for fishing, bird watching, horse riding or simply walking through the peaceful country parks pausing for refreshment at a country pub or tea room. Water lovers can cruise the meandering waterways of the beautiful River Great Ouse or enjoy sailing, wind surfing or water skiing. For something a little different there is rally karting, gliding, ten-pin bowling, an afternoon at the races at Huntingdon Steeplechases or even hot-air ballooning!

Educational Objectives

The course aims to teach the trainees basics of common hip, ankle, wrist and paediatric fractures that occur in day to day practice.

Teaching will consist of Interactive Lectures, Hands-on Workshops and Case discussions to help the trainees develop confidence in the management of these very common injuries.

Target Audience

This whole day course has been specifically designed to benefit the FY1-2, CT, ST1-3 Trainees.

Course Organiser
